

B-SAFE Driving Education LLC

NOTICE

Section 4508.02 Bureau of Motor Vehicles allows ALL private driving schools six (6) full months from the date students start in the classroom to complete their driving education course.

Due to weather conditions, illnesses, school activities, etc., there are many problems or complications beyond our control that may for some reason hold up the scheduling of a student's driving portion beyond your expectations.

We will endeavor to get every student scheduled and completed just as soon as possible but, ***we cannot and do not make any promises.***

If this is agreeable, please sign and date that you have read and agree with this notice. Thank you for your understanding.

Donald & Betty Cepluch/*owners*

I do understand that all fees must be paid in full prior to a student being scheduled for in-car driving.

If this is agreeable, please sign and date that you have read and agree with this notice and the information it contains.
